

I have a dog about the size and collar that old Ship was at the old home when Mama and Pappa were living and he keeps the foxes run away from the house when he knows they are around but I still miss a few chickens sometimes.

We have had some very hot days up here this Summer but it seems to be cooler today and I don't think it will be as hot any more this Summer.

Have been having little dizzy spells occasionally and at times could hardly see and stand up for about a minute and then it would pass off but am better of that now.

Write again as soon as you will.
Howard.
